

Next Level Hockey

Coaches at all levels are looking for players with skill.

Every player needs to learn puck skills and recognize how to control the puck all around their body and work on puck eye hand coordination skills, puck multi-tasking skills, puck footwork skills, puck agility skills, edge work with a puck, and understand the step by step mechanics of our moves, fakes, or dekes, while learning how to angle the opposition with the puck so they can make these moves work in game situations and create extreme puck confidence while improving their ability to read and react while enhancing their creativity....

This is what NLPD is about and why we have studied puck skill development for many years in North America and in Europe.

The game of hockey is getting quicker, faster, and is played in close tight areas all over the ice in a 10-20 ft parameter, with stretches of open ice puck movement. Our emphasis is placed on creative puck control skills in small areas with quick turns, spins, pivots, fakes, and constant inside and outside edge skating work.

Practice makes permanent! It's all about hard work and working smart. Whether it is in school, hockey, or your career, your work ethic along with repeated correct repetitions.....determines your outcome.

ONLY PERFECT PRACTICE

MAKES PERFECT!

Wayne Gretzky has said, "If you can't skate, you can't play. Skating is an art."

Skating, or SPEED, IS THE NAME OF THE GAME. Without good technique, it is very difficult for any hockey player to reach his or her optimum potential for speed.

Laura Stamm Power Skating is the finest technique training program in the world. The entire focus of the program is to teach SPEED, ACCELERATION AND MOBILITY by teaching HOW TO CORRECTLY EXECUTE every possible hockey maneuver. We don't just tell you to GO. We teach you HOW TO GO!! Speed on straight-aways, accelerating the corners, explosive starts, backward maneuverability, quickness and rapid transition - all are taught in a step by step, progressive sequence that is made simple to learn and easy to remember.

Learn from the Pioneers of Power Skating!

First, we teach CORRECTLY. Then your taught correctly, POWERFULLY. Then we teach you correctly, powerfully, and QUICKLY. The final step is correctly, powerfully, quickly, WITH THE PUCK. Put these all together in a game situation and you now have an edge over your competition.
